

“sited from <https://www.elephantsands.com/>

Elephant Sands is a bush lodge & campsite in the north-eastern part of Botswana. Come and enjoy viewing the elephants at our natural waterhole right in front of the lodge. Watch these impressive creatures whilst they drink at only a couple of meters away from you, a unique experience!

There is plenty of other wildlife around as well on our unfenced 16000 ha private conservancy. The lack of fences allows all animals to roam freely. We are ideally located in the centre of Botswana's highlights, such as: the Makgadikgadi pans, the Okavango delta and Chobe National Park. Victoria Falls and Hwange National Park are on our doorstep so to speak.

Our lodge is a great starting point for a tour along all these places of interest. Find out more about the activities and personalized Tours & Safaris we offer. Stay in one of our en suite Chalets or pitch your own tent and experience the serenity and peacefulness of the real African bush.

What to expect

Elephant Sands is a Bush Lodge where you can get the real Bush experience. The lodge is set on a private conservancy of 16000 hectare. Since there are no fences all wildlife can roam freely from one waterhole to another and one can expect to see anything during your stay at Elephant Sands. its an experience to get closer to nature and take into consideration all the smaller life.

Wildlife

There is an abundance of wildlife in the area, and with no fences these animals roam freely amongst us, we have many antelope species, from kudu, impala, steenbok and many more, we have the elephants and giraffes, we have lions, leopards and wild dogs in the area as well as your famous hyena, the smaller species such as

genets, civets and servals as well as the mongoose and honey badgers and many more rodents, our abundant bird life and beautiful plant species all around.
